Invitation for exhibition

To all companies worldwide with an interest in district heating this congress is an excellent opportunity to meet your colleges and customers from various countries and to present your products to an international CHP audience. With a very interesting program, high level speakers and four specialist workshops, we expect this congress to be visited by more than 300 people. Thus it is a unique chance for you to promote your company and products.

We can offer both stalls and meeting points. A meeting point is an easy and pleasant way to participate. You have only to bring three poster prints that fit the display system (size A1). If you would like to hire a stall, you have the opportunity to set up a company presentation with your own image and material. If you would like to book an exhibition space, please contact FIF Marketing on +4576308038 or fill in the registration form. You will find the exhibition plan on the attached leaflet. Find more information on www.fif-marketing.dk.
